

# YoungParrot Whitepaper

Version 2.0 - February 2024

# Introduction

YoungParrot is a NFT marketplace on Core. We will allow users to create an account, create collections, start uploading NFTs and sell/buy NFTs.

The users can mint other NFTs on all NFT launchpads on YoungParrot, and also can stake NFT to earn token.

YoungParrot Member (YPM) NFT is a collection which will be used for staking, giveaway, rewards, marking and development. The investors can stake YPM NFT to earn YPC token.

YoungParrot VIP is a special NFT collection of YoungParrot project with dividend. We will share 30% of our revenue to all holders 2-3 days after each quarter ended.

We're planning to build token launchpad, token locking, token swap (DEX), and build our own blockchain and DAO.

# YPC token allocations structure

Token address: 0xf15fBa1E7112d680055962fB85a0C04550f24097

Max supply: 1 Billion

- We have token staking pools to earn more YPC.

Tax fees:

- 0% fee

Burn:

- We're going to burn YPC to reduce total supply and increase price.

# YoungParrot Member collection

YoungParrot will release a NFT Member collection of the parrot. YoungParrot Member collection will have 10K NFT items and 3 different tiers: Bronze, Silver and Gold.

YoungParrot will do a launchpad of 3K NFT items on YoungParrot NFT marketplace for development, marketing and presale NFT giveaways. The rest 7K NFT items will be used for our staking programs and other giveaways.

The benefits of holding YoungParrot Member NFT are:

- Have great discount price for other launchpads.
- Can stake to earn YPC or other tokens.
- 50% discount for buyer and seller fees from 2.5% to 1.25%.

# YoungParrot VIP collection

YoungParrot VIP is a special NFT collection of YoungParrot project with dividend. We will share 30% of our revenue to all holders 2-3 days after each quarter ended.

Marketplace fee address: 0xBFb53b9a18B29A09f2817048a8067B56A9829b07

Launchpad & Staking fee address: 0x38EE56bC6994FB34B1f1D8Ae6B2a8a6256043498

# NFT staking pools for the NFT creators

YoungParrot will allow NFT creators to create their own NFT staking pools for their NFT holders to stake their NFTs to earn tokens like BRISE, YPC, project owner token or other tokens.

Staking fee: TBD and it is based on the staking pool owner.

Unstake fee: 2% of the rewards will be deducted.

Penalty:

If the NFT stakeholders unstake before the lock period, then 50% of the rewards will be deducted.

# NFT Services

YoungParrot has NFT graphic designer and smart contract writer services to allow NFT project owners who would like to hire good graphic designers and contract writers that we verified and listed on our marketplace page to do their NFT collections.

Fee: TBD

# Roadmap
